

BALLA DK

R.I.S.E. ONE-PAGE WEBSITE

AIDA + Gated Content Developer Brief

A conversion-focused build plan to attract financial clients and new agent recruits, diagnose their needs, and guide them through personalised gated content.

ATTENTION

INTEREST

DESIRE

ACTION

Version 2.0 | 13 July 2026

The R.I.S.E. Roadmap remains the central intellectual and visual anchor.

Prepared for strategy, copy, UX, development, CRM automation and compliance review.

What the rebuilt website must accomplish

The website should guide visitors from recognition to self-diagnosis, then exchange a useful personalised result for consented contact details.

1

Attract the right visitor

Use pain-aware, outcome-led messaging for Malaysians seeking financial clarity, income growth, career development or leadership.

2

Build belief before asking

Teach the R.I.S.E. sequence, reflect the visitor's situation and demonstrate a credible path before presenting a form.

3

Convert through value

Use dual gated scorecards that deliver a personal diagnosis, a next-step plan and a relevant human follow-up.

PRIMARY OUTCOMES

CLIENT LEAD

Financial Health Scorecard

Book a review

RECRUIT LEAD

Career Growth Scorecard

Attend a career preview

LEADER LEAD

Empire Readiness Route

Leadership conversation

NURTURE LEAD

R.I.S.E. Circle

Ongoing education

Core KPI: qualified gated-content completions, not raw clicks. Secondary KPIs: quiz start rate, gate completion, result CTA click and booked conversation.

Use NLP-inspired copy ethically

Use language patterns to improve clarity, relevance and motivation - never to mislead, pressure vulnerable people or conceal material facts.

1 Pace

Reflect what the visitor may already feel: "You may be earning and trying, yet still feel unsure what to fix first."

2 Reframe

Shift blame from the person to the sequence: "The problem is not lack of effort. It is a missing step."

3 Chunk

Turn complexity into five steps, one missing letter and one next action.

4 Future pace

Help visitors picture a realistic benefit: "Imagine knowing the next financial move to focus on this month."

5 Mirror

Reuse the visitor's selected goal in headings, result copy and follow-up.

6 Choice

Offer transparent routes: finance, career or leadership. Never create a false either/or.

Never use: guaranteed returns or earnings, fake scarcity, invented testimonials, hidden consent, fear-only health messaging, or pressure on people in financial distress.

Three audiences, one diagnostic brand

Every route should begin with the visitor's desired outcome and end with the correct gated experience.

Financial Client

Current thought

"I earn, but I am not sure whether my family, debt, investments and legacy are properly structured."

Desired feeling

Clear, protected and in control.

Gate

R.I.S.E. Financial Health Scorecard

Next CTA

Book a Financial Clarity Review

New Recruit

Current thought

"My income feels capped and I want a career with skills, mentorship and growth - but I need the real picture."

Desired feeling

Capable, supported and informed.

Gate

R.I.S.E. Career Growth Scorecard

Next CTA

Attend a Career Preview

Industry Leader

Current thought

"I can produce, but I need a repeatable system for recruiting, coaching and leadership."

Desired feeling

Scalable, influential and free from constant hunting.

Gate

Empire Readiness Assessment

Next CTA

Leadership Strategy Conversation

Core self-selection question: "What needs to R.I.S.E. next - my finances, my income, or my leadership?"

The belief journey behind the page

Each stage changes one belief and earns permission for the next step.

Do not treat AIDA as four isolated blocks. Repeat mini-AIDA loops around each CTA while keeping one coherent page narrative.

Recommended AIDA page flow

The scorecard can open from multiple CTAs, but every route should use the same measurement and consent logic.

Sticky CTA: FIND MY MISSING STEP | Secondary sticky CTA after route selection: GET MY RESULT

Hero section mockup

Lead with the problem and the immediate diagnostic value - not with a list of products or company history.

Hero test: compare this diagnostic headline against "Your money should build a life, not just pay bills." Keep the CTA outcome-specific.

Hook matrix for two main routes

Use the visitor's language and selected goal. Test one primary hero at a time rather than combining every promise.

CLIENT HOOKS

1 Pattern interrupt

"High income without a financial system can become expensive chaos."

2 Missing-letter hook

"You may have Income, but is your Restore foundation strong enough?"

3 Outcome hook

"See the next financial step to focus on - before buying another random product."

RECRUIT HOOKS

1 Income ceiling hook

"Your salary may be stable. Your growth does not have to stay capped."

2 Reality-first hook

"Do not join an agency for hype. Check whether the work, skills and model fit you."

3 Identity hook

"Build the skills to become a trusted adviser, income builder and future leader."

NLP COPY SEQUENCE

1. PACE

Name the current experience without pretending to know everything.

2. REFRAME

Make the missing sequence the problem, not the person.

3. LEAD

Offer one small next step: take the scorecard.

4. FUTURE PACE

Preview clarity, not guaranteed wealth or income.

CTA formula: Verb + personal outcome

Example: FIND MY MISSING STEP

Create the "missing step" moment

The visitor should recognise a gap without being shamed. This section earns curiosity for the full R.I.S.E. roadmap.

WAKE-UP CALL

**YOU CAN BE DOING
MANY THINGS RIGHT
AND STILL HAVE ONE
MISSING LETTER.**

The goal is not to frighten visitors. It is to help them see that financial freedom depends on sequence, balance and the next appropriate step.

SHOW ME WHAT IS MISSING

One shock could disrupt the family.

Tap to see the related R.I.S.E. step and start the scorecard.

Income may not be growing fast enough.

Tap to see the related R.I.S.E. step and start the scorecard.

Savings may not be compounding with purpose.

Tap to see the related R.I.S.E. step and start the scorecard.

No legacy or leadership system is in place.

Tap to see the related R.I.S.E. step and start the scorecard.

Interaction: clicking a letter stores the visitor's hypothesis and personalises the next heading, quiz intro and hidden lead tags.

Teach the R.I.S.E. roadmap in five steps

The roadmap gives visitors a memorable explanation for why random financial actions often feel disconnected.

- 1 **Safety Net** Protection, emergency cash and will-writing conversation
- 2 **Clean Up** Debt audit, payment priorities and cashflow visibility
- 3 **New Engine** Skills, agency career and scalable income opportunity
- 4 **Money Machine** Goal-based investing, unit trust, PRS and assets
- 5 **Legacy** Leadership, systems, inheritance and continuity

Each step opens: pain → principle → quick self-check → relevant CTA

Let visitors choose the journey that fits

Choice reduces confusion, improves relevance and lets the website mirror the visitor's own words.

MY FINANCES

Protect & Grow

For clients

I want to protect my family, clean up cashflow and build wealth in the right order.

START FINANCIAL SCORECARD

MY INCOME

Income & Career

For new recruits

I want to understand whether an agency career, new skills and mentorship could fit me.

START CAREER SCORECARD

MY LEADERSHIP

Systems & Leadership

For industry leaders

I want to build a repeatable recruiting, coaching and leadership system beyond personal sales.

CHECK EMPIRE READINESS

Developer rule: route selection should set path tags, alter quiz questions, change result CTA and persist through the session.

Client route: from uncertainty to a clear sequence

Sell the benefit of organised decision-making before asking for a review.

DESIRED TRANSFORMATION

FROM RANDOM FINANCIAL ACTIONS TO ONE CLEAR NEXT-STEP MAP.

The scorecard should help the visitor identify whether the urgent priority is Restore, Income resilience, Sustain or Empire.

GET MY FINANCIAL MAP

1

Clarity

See the strongest and weakest R.I.S.E. areas.

2

Priority

Receive three realistic actions for the next 30 days.

3

Confidence

Know what questions to ask before any recommendation.

4

Support

Choose a review only when the conversation is relevant.

Compliance position: the score is educational and does not itself constitute product advice, suitability assessment or a guarantee of results.

Recruit route: sell fit, skills and mentorship

The page should present the opportunity honestly. Attract people who want to learn and serve, not people chasing guaranteed income.

DESIRED TRANSFORMATION

FROM AN INCOME CEILING TO A SKILL-BASED CAREER PATH.

The gated content should explain the work, standards, learning path and support before asking someone to attend a career preview.

CHECK MY CAREER FIT

1

Reality

Clear expectations about licensing, activity and performance.

2

Skills

Communication, prospecting, financial education and service.

3

Support

Onboarding, role-play, field coaching and community.

4

Path

A progression from learner to adviser to leader.

Mandatory: state that earnings vary and depend on effort, skill, licensing, market conditions, conduct and compliance. No earnings guarantee.

Build trust with founder authority and evidence

Balla DK should feel like a direct, caring mentor with a clear system - not a faceless agency page or celebrity fantasy.

Suggested founder narrative

"Most people receive financial advice in pieces. One person talks about protection, another about investing, and someone else says to earn more. I built the R.I.S.E. Roadmap to put the pieces in the right order - so you can see what is missing and what to do next."

Do not invent years, team size, awards, client numbers or media appearances. Keep placeholders until proof is approved.

Use proof to reduce doubt, not to manufacture hype

Place relevant evidence immediately before the gate and again beside the result CTA.

1

Client proof

Context → challenge → action → outcome

Example: improved debt visibility, completed protection review or started a regular plan. Avoid guaranteed claims.

2

Recruit proof

Background → training → effort → responsibilities

Show the learning journey, support and current role. Do not imply typical or guaranteed earnings.

3

Community proof

Approved screenshots, workshop attendance, milestones and member feedback. Remove private data and obtain permission.

Objections to answer before the form

"Will I be pressured to buy or join?"

No. The first step is a score and educational conversation.

"Is this only for high earners?"

No. The next step depends on current needs, readiness and suitability.

"Do I need sales experience?"

Not necessarily. The career preview explains the work, learning and expectations.

"Are results guaranteed?"

No. Financial and career outcomes vary and require appropriate decisions and effort.

Dual gated content framework

Use one visual system with separate question branches and separate result promises.

A. R.I.S.E. Financial Health Scorecard

PROMISE

In about 3 minutes, discover your strongest R.I.S.E. letter, the area that needs attention and three practical next steps.

DELIVERABLE

- On-screen score summary
- Personal 30-day action map
- Email / WhatsApp result link
- Optional Financial Clarity Review

BEST FOR

Clients, families and professionals seeking financial structure.

B. R.I.S.E. Career Growth Scorecard

PROMISE

In about 3 minutes, see whether your goals, readiness and preferred working style align with an agency career and leadership pathway.

DELIVERABLE

- Career-fit summary
- Strengths and development gaps
- 30-day learning preview
- Optional Career Preview Session

BEST FOR

Employees, career switchers and aspiring leaders.

Both gates must deliver stand-alone value even when the visitor does not book, buy or join.

Gated-content experience from click to conversation

Delay contact fields until the visitor has completed meaningful micro-commitments and can see that a personal result is ready.

Progressive profiling rule

Before result: first name, email, WhatsApp and consent only. After result: optional role, location, preferred contact time and booking details. Never pre-check marketing consent.

Abandonment recovery may be used only when consent and platform rules permit. Do not capture partial personal data invisibly.

Financial Health Scorecard question framework

Use a consistent 0-3 scale: Not in place / Starting / Mostly in place / Strong and reviewed.

Optional context questions after the result: primary financial goal, time horizon and preferred conversation topic. Avoid requesting unnecessary sensitive data.

Career Growth Scorecard question framework

Score fit and readiness without exploiting financial pressure. A low Restore score should trigger education, not aggressive recruitment.

The scorecard is a conversation starter, not an employment decision. The final career preview should cover role expectations, costs, licensing and compensation clearly.

How scores become a personalised result

Normalise each R.I.S.E. category to 0-100. Use the lowest category as the likely priority, then apply path, goal and safety rules.

DECISION RULES

- | | | | | | |
|-------------------------|---|-----------------------|---|----------------------|---|
| 1 Missing letter | Lowest normalised category becomes the primary educational result. | 2 Tie-break | Use selected goal, urgency and path to choose the first recommendation. | 3 Safety rule | Recruit with low Readiness receives a readiness checklist, not a high-pressure booking. |
| 4 Relevance rule | Only display product, review or career CTAs relevant to the declared path and result. | 5 Human review | High-intent submissions create a task for an authorised team member. | | |

Do not label a visitor as "bad", "broke" or "unfit". Use developmental language and make the scoring method explainable.

What the visitor receives after the gate

The result page should feel more valuable than the form felt costly. Show the diagnosis immediately and make the next action optional but obvious.

Result content blocks

- 1

Score summary
Strongest letter, missing letter and overall context.
- 2

Meaning
Plain-English explanation without diagnostic certainty.
- 3

30-day actions
Three small steps matched to the result.
- 4

Avoid list
Common mistakes to pause or review.
- 5

Conversation guide
Questions to ask an adviser, mentor or leader.
- 6

Choice CTA
Book, join community or continue learning.

The emailed/downloadable version may be a 4-5 page personalised PDF. It should include the same result, actions and disclosures as the on-screen page.

Framework for the downloadable result content

Create two branded templates that can be populated dynamically or assembled from approved content modules.

Client result PDF - 5 pages

PAGE 1 - Your R.I.S.E. Score

Visual score, strongest letter and next priority.

PAGE 2 - What Your Missing Letter Means

Plain-English explanation and why sequence matters.

PAGE 3 - Your 30-Day Action Map

Three actions, one weekly check-in and one key question.

PAGE 4 - Questions Before Any Financial Decision

Protection, debt, investment and legacy checklist.

PAGE 5 - Your Choices

Book a review, join the R.I.S.E. Circle or continue learning.

Recruit result PDF - 5 pages

PAGE 1 - Your Career Growth Score

Readiness, income skills, sustainability and empire potential.

PAGE 2 - Your Strengths and Gaps

What supports fit and what requires development.

PAGE 3 - 30-Day Learning Preview

Communication, prospecting, service and weekly activity.

PAGE 4 - Reality Check

Licensing, effort, conduct, compensation variability and expectations.

PAGE 5 - Your Choices

Attend a career preview, join a Q&A or continue learning.

Every content module needs an owner, approved wording, revision date and compliance status. Avoid generating regulated recommendations automatically.

CRM fields, tags and team actions

The website should create a usable record, not just send an unstructured notification email.

1 Captured fields

REQUIRED

- First name
- Email
- WhatsApp number
- Path selected
- Consent timestamp

HIDDEN

- R/I/S/E scores
- Missing letter
- UTM source / campaign
- Landing variant
- Quiz version
- Result CTA clicked

2 Lead tags

JOURNEY

Client / Recruit / Leader

PRIORITY

Restore / Income / Sustain / Empire

INTENT

Low / Nurture / Review / Career Preview / Leadership

READINESS

Needs education / Developing / Ready for conversation

OWNER

Assigned adviser, recruiter or leader

3 Automation outputs

IMMEDIATE

- Result page
- Email result link
- WhatsApp acknowledgement
- CRM record

TEAM

- High-intent notification
- Follow-up task
- Conversation script prompt

NURTURE

- Correct sequence
- Community invitation
- Booking reminder only when relevant

Developer must confirm CRM, email platform, WhatsApp workflow, calendar tool, data retention and lead ownership before implementation.

Two nurture sequences after the result

Messages should continue the diagnosis, provide useful education and invite a relevant conversation without repeated pressure.

CLIENT NURTURE

RECRUIT NURTURE

Stop or reduce follow-up after unsubscribe, explicit decline, repeated non-engagement or where platform/consent rules require it.

Full-page layout inspiration with AIDA overlays

Use the existing mockup as a starting point, then reorganise the content around the AIDA sequence in this brief.

ATTENTION

Hero + credibility + problem

Open the scorecard from the hero; do not force a long scroll.

INTEREST

Missing letter + roadmap + path selection

Use interaction and personalisation to keep the visitor moving.

DESIRE

Client/recruit outcomes + founder + proof

Place proof and objections before the contact gate.

ACTION

Scorecard + result CTA + FAQ

Show result immediately and offer one relevant next action.

One page + multi-step quiz overlay or inline stepper + dynamic result state

Most social visitors will arrive on a phone

The mobile experience should preserve clarity, speed, consent and the feeling of progress.

Mobile requirements

- ✓ Stack headline before image.
- ✓ Keep one primary sticky CTA visible.
- ✓ Use a one-question-per-screen quiz.
- ✓ Show progress and estimated time.
- ✓ Use large tap targets and 16px+ body text.
- ✓ Allow back navigation without losing answers.
- ✓ Make consent readable and unchecked.
- ✓ Compress and lazy-load non-critical images.
- ✓ Open WhatsApp and calendar links correctly.

Target: result accessible in under 3 minutes on typical mobile data.

Recommended conversion copy and microcopy

Use simple Malaysian English, action-led labels and transparent expectations. Avoid generic buttons such as Submit or Learn More.

HERO	Your next financial breakthrough starts with knowing what is missing.	FIND MY MISSING STEP
CLIENT PATH	You do not need another random product. You need the right step, in the right order.	GET MY FINANCIAL MAP
RECRUIT PATH	Do not join for hype. First see whether the work, skills and model fit you.	CHECK MY CAREER FIT
QUIZ INTRO	Answer a few practical questions. Your result will show your strongest R.I.S.E. area and the next one to build.	START - ABOUT 3 MINUTES
GATE	Your result is ready. Where should we send your personal R.I.S.E. map?	SEND MY RESULT
RESULT - CLIENT	Your next priority is Restore. Start by strengthening the foundation before adding more complexity.	BOOK A CLARITY REVIEW
RESULT - RECRUIT	Your strongest signal is Income Skills. The next step is to understand the real work and learning path.	ATTEND A CAREER PREVIEW
LOW INTENT	Not ready for a conversation? Keep learning inside the free R.I.S.E. Circle.	JOIN THE R.I.S.E. CIRCLE

Use the visitor's selected goal in dynamic headings, but never infer sensitive facts or state assumptions as certainty.

Premium, direct and recognisably R.I.S.E.

Use navy and gold for authority; use phase colours to teach the framework and show progress.

Authority Navy #081A2F

Deep Blue #0F2E52

Signature Gold #D4AF37

Warm Gold #F1D27A

Restore #1F5A99

Income #E4572E

Sustain #2E8B57

Empire #7A3FA0

T

Typography

Headlines: Manrope or Montserrat
Body/UI: Inter
Fallback: Arial / system sans

Use bold, compact headlines with generous
whitespace and short paragraphs.

I

Images

Founder-led photography
Real team, training and community moments
Direct eye contact
Minimal stock imagery
Use the R.I.S.E. pyramid as a repeated educational
anchor.

V

Inspiration principles

Transformation-first hero
Direct qualification
Editorial authority
High-contrast CTAs
Proof near action
Original execution - do not copy another brand's layout
or assets.

Visual mood: No-Nonsense Mentor - direct, premium, caring and "kopitiam friendly".

MVP build, integrations and event tracking

Keep the first release focused, fast and measurable. The gated experience is the product.

1

Core build

- One responsive landing page
- Sticky nav and CTA
- Dynamic route selection
- Multi-step scorecards
- Scoring and result states
- Accessible validation
- Thank-you / booking states
- SEO and social metadata
- Privacy, terms and disclaimer links

2

Integrations

- CRM / lead database
- Email result delivery
- WhatsApp acknowledgement
- Calendar booking
- R.I.S.E. Circle link
- Team notifications
- Spam protection
- UTM and source capture
- Optional dynamic PDF generation

3

Analytics events

- Hero CTA clicked
- Path selected
- Quiz started
- Question reached
- Quiz completed
- Gate viewed
- Gate submitted
- Result shown
- Result CTA clicked
- Booking completed
- WhatsApp clicked

Acceptance: data reaches the correct owner with path, scores, consent, source and result - and the visitor receives the promised content immediately.

Build consent, safety and truth into the UX

The experience should make the user feel informed and respected, especially around financial decisions and recruitment.

F

Financial content

- Education before recommendation
- Suitability and needs analysis by authorised people
- No guaranteed returns
- No fear-based health claims
- Approved product wording only
- Clear risk and eligibility disclosures
- Quiz result is not regulated advice

R

Recruitment content

- No guaranteed earnings
- Explain licensing and effort
- Disclose performance variability
- State role expectations and costs
- Do not pressure financially vulnerable people
- Distinguish career preview from job offer
- Use verified agent stories only

D

Data and consent

- Consent unchecked by default
- Separate result delivery from optional marketing consent where required
- Show privacy link beside form
- Store timestamp and source
- Define retention and deletion process
- Honour unsubscribe / opt-out
- Limit data to what is necessary

Final public copy, forms, result logic, tracking and follow-up must be reviewed by the relevant legal/compliance owner before launch.

What the developer needs before launch

The structural build can begin now. Final launch requires approved content, proof, integrations and ownership.

1 Brand and media

- ☐ Final logo / wordmark
- ☐ High-resolution founder portrait
- ☐ R.I.S.E. pyramid master image
- ☐ Approved colours and fonts
- ☐ Team / event photography
- ☐ Social links and handles
- ☐ Favicon and share image

2 Content and proof

- ☐ Verified biography and credentials
- ☐ Approved client/recruit copy
- ☐ Scorecard questions and scoring
- ☐ Result content modules
- ☐ Real testimonials with permission
- ☐ FAQs and disclaimers
- ☐ Follow-up sequences
- ☐ Conversation owners

3 Technology and legal

- ☐ Domain and hosting
- ☐ CRM and email access
- ☐ WhatsApp destination
- ☐ Calendar booking link
- ☐ Community link
- ☐ Privacy and consent copy
- ☐ Terms and disclosures
- ☐ Analytics accounts
- ☐ Data retention decision

Launch sequence: wireframe → final copy → visual design → development → integrations → compliance → QA → publish → optimisation

THE CONVERSION PROMISE

**DO NOT PUSH EVERY VISITOR
TOWARD THE SAME PRODUCT
OR CAREER CONVERSATION.**

Help them recognise what is missing, understand the R.I.S.E. sequence, receive a useful result and choose the next step that genuinely fits.
